SIR:

Prior to a first examination on the merits, please amend the above-identified
application as follows:

IN THE CLAIMS

Please cancel Claims 1-11 without prejudice.

Please add new Claims 12-22 as follows:

12. (New) System for measuring the refractive index of at least one medium
comprising:

Al
a waveguide comprising at least one transducer formed, in the part of the waveguide
brought into contact with the medium, by a blazed Bragg grating, the spectral response of
which depends on the refractive index of the medium by means of energy coupling between
the guided mode and cladding modes and/or a continuum of radiative modes,
